Roots 2 STEM is a local non-profit educational centre where students are able to experience STEM education through innovative hands-on learning.

SPACE CAMP

Roots 2 STEM Aerospace Program

This aerospace program is perfect for youth who desire experience and knowledge of what it takes to be an astronaut. During the week Astronauts in Training will:

- Experience real astronaut preparedness
- Flight training with missions to the space station
- Build Mars rover in our engineering room
- Conduct scientific experiments
- Command the control centre on missions
- Command rover and drone missions
- Learn about astronomy, navigation, spacecraft design, rocket science and more
